- Up to 4K display support
- Wireless networking
- USB, serial and parallel ports
- HDMI, DP and DVI
- Citrix, VMware, Microsoft and Teradici connectivity

**Zero clients and
entry-level Thin Clients**
for TASK WORKERS

Mid-range Thin Clients
for KNOWLEDGE WORKERS

**High-performance
Thin Clients**
for POWER USERS

ThinClientShop.co.uk

Zero Clients/entry-level Thin Clients for **TASK WORKERS**

The ideal choice for task workers, such as call-centre agents, retail employees and warehouse workers.

Mid-range Thin Clients for **KNOWLEDGE WORKERS**

Perfect for both task and knowledge workers – such as accountants, sales managers and analytics teams.

High-performance Thin Clients for **POWER USERS**

Designed for power workers, such as application developers, digital signage creators and other creative professionals.

The widest and most advanced line-up of desktop thin clients and zero clients

VXL is one of the world's leading manufacturers of thin-client computers. Our range of thin and zero clients offers something for every performance level and almost every use.

VXL's thin clients are competitively priced and economical to run. Generously specified, our range includes dual-core and quad-core processors, solid state drives and powerful integrated GPUs. Designed to connect to most servers, distributed networks and cloud-hosted infrastructures, VXL's systems are available running Linux, Windows or without an OS.

VXL Software

VXL also provides leading software solutions inc:

- the industry's most affordable, powerful, unified endpoint-management software, Fusion UEM,
- quick and easy PC repurposing software for transitioning to thin clients via CloudDesktop or CloudDesktop On the Go,
- a comprehensive digital signage solution, Illumineye Digital Signage, incorporating creator and manager software plus media player.

- ISO 9001:2008 **quality management** system
- ISO 14001:2004 **environmental management** system
- Certified for **EMI** (FCC Part 15; CISPR 22)
- Certified for **safety** (CISPR 22; UL1950; IE950; TUV; CSA)
- Certified for **power economy** (Energy Star)
